SKILLS

AI / ML

LangChain, RAG, LCEL, FAISS, HuggingFace, Neo4j knowledge graphs, GenAI chatbots, prompt engineering; scikit-learn, pandas (regression, classification, feature engineering, pipelines)

Frontend

React, TypeScript, JavaScript, HTML, CSS, Bootstrap, React Hook Form

Backend

Node.js, Python, REST APIs, design patterns

Databases

MongoDB, SQL

Cloud / Tools

AWS, Git, Bitbucket, Jira, Puppeteer

EDUCATION

Full Stack Development & ML

Nelware Disruptive Technologies
Apr 2021 – Feb 2022

B.Tech, Mechanical Engineering

Rajiv Gandhi University of Knowledge & Technologies
2018 – 2022

STRENGTHS

Team Leadership · Mentoring · Ownership · Clear Communication

SUMMARY

Full-stack developer (4 yrs) across React, Node.js and Python, now building and shipping GenAI products with LangChain, RAG and Neo4j knowledge graphs. Team-lead experience; a self-driven learner who takes ownership end-to-end and ships to production.

WORK EXPERIENCE

Senior Full Stack Developer / Team Lead — [Patternlab.AI, Hyderabad](#)

Sep 2024 – Present

- **Developed a GenAI seafood-traceability system:** modeled processing stages as a Neo4j knowledge graph, complemented by a LangChain chatbot for straightforward batch and Purchase Order queries (self-taught in Neo4j and Cypher).
- **Created and launched Pattern Intelligence:** this machine-analytics product features a color-coded Machine Timeline, providing clients with real-time, at-a-glance insights.
- **Automated the delivery of daily and weekly reports:** reports are now sent seamlessly via email and WhatsApp.

Full Stack Developer — [CyberMart India, Hyderabad](#)

Oct 2023 – Sep 2024

- **Automated the order-to-delivery pipeline:** integrated third-party logistics partners (Shiprocket — Ecom Express, DTDC — and Bluedart), eliminating manual shipment handling.
- **Built invoice and waybill templates:** dynamic EJS templates with barcodes, auto-generated and delivered to customers.

Full Stack Developer — [Crenspire Technologies, Ahmedabad](#)

Mar 2023 – Sep 2023

- **Developed web features for a Canada-based client:** worked to professional coding standards and code-review practices.

Full Stack Developer — [Sanketika Consulting Pvt Ltd, Bangalore](#)

Mar 2022 – Dec 2022

- **Built full-stack web application features:** developed and maintained features using React and Node.js.

PROJECTS

Conversational RAG Chatbot (deployed)

LangChain · FAISS · HuggingFace · Groq · Streamlit

Document-QA chatbot with PDF upload + chat memory, live on Streamlit Cloud. Embeddings run locally (HuggingFace) for zero per-use cost; users bring their own LLM key.

NestJS Microservices System

NestJS · Stripe · MongoDB · Docker

Distributed system with auth, reservation, payments & notifications services — JWT auth, Stripe payments, event-driven messaging, and Docker Compose orchestration.

Enhanced Q&A; Chatbot

LangChain (LCEL) · Streamlit

LLM chat app with model picker plus temperature and max-token controls, built on modern LCEL chains.

ML Fundamentals

scikit-learn · pandas

Regression and classification (logistic regression, KNN) with feature engineering (encoding, scaling, selection) and scikit-learn pipelines across multiple datasets.
